

H₂O COLLECTION

THE SUNSET UNDERWATER AND LANDSCAPE LIGHTING COLLECTION FROM DESIGNER LIGHTING SOLUTIONS

will add another layer of beauty to your living, working or sailing space. This line of fixtures made from the highest grade materials and CNC-machined with American craftsmanship allows you to enjoy your outdoor area above and below the waterline after the sun goes down while also providing function.

Our fixtures were created for docks creating an underwater visual of the world below the water and adding safety features, as well as, for use with fountains, ponds, decks, landscaping and name boards or almost any exterior lighting need.
