

# VANTAGE POINT COLLECTION

## LIGHTING SOLUTIONS IN A CLASS OF THEIR OWN!

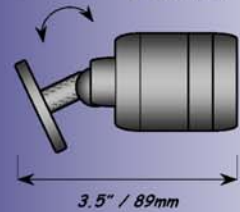

Unlike anything else on the market today, our spot lights are machined out of 316L Stainless Steel or 5086 Marine Grade Aluminum. Their unique design ensures that they are 100% watertight. Use the MUL7 or MUL8 anywhere on your vessel's interior or exterior. They are perfect to light up masts or nameboards on the exterior, or an exquisite reading light for the interior. Functionality coupled with aesthetically pleasing designs place this product line in a class above the rest.
